

## Scientific Committee on Oceanic Research

Secretariat: Department of Earth and Planetary Sciences  
The Johns Hopkins University  
Baltimore, MD 21218 USA

PRESIDENT: Professor Robert A. Duce  
SECRETARY: Dr. Julie A. Hall  
EXECUTIVE DIRECTOR: Dr. Edward R. Urban, Jr.

14 May 2003

To: Committees for SCOR, Nominated Members of SCOR,  
SCOR Executive Committee, Chairs of SCOR Subsidiary Bodies,  
Affiliated Organizations, Corresponding Organizations,  
Interested International Organizations  
From: Ed Urban, Executive Director

### **36<sup>th</sup> SCOR EXECUTIVE COMMITTEE MEETING REQUEST FOR REVIEW OF WORKING GROUP PROPOSALS**

Five working group proposals that have been submitted to the SCOR Secretariat for consideration at the 2003 SCOR Executive Committee meeting are available on the SCOR Web site at [www.jhu.edu/scor/2003-EC-Meeting.htm](http://www.jhu.edu/scor/2003-EC-Meeting.htm). The Executive Committee will be very grateful for comments from SCOR National Committees, individuals, and interested organizations to assist in the review of these proposals. This is, in fact, one of the most important ways in which SCOR's National Committees can provide input to SCOR on scientific priorities.

Comments are requested on the following points, among others:

- Is the proposal timely?
- Is the topic a priority for ocean science and for SCOR?
- Is a SCOR Working Group a good mechanism to advance this topic?
- Are the terms of reference appropriate?
- Are the membership suggestions appropriate? (Please note that individuals listed as potential members may not have been contacted yet and that membership is not final until approval by the SCOR Executive Committee.)
- How would you rank the priority of SCOR funding for these proposals, from 1 (highest ranking) to 5 (lowest ranking)? We will have funds to support one or two new working groups to begin in 2004.

Additional membership nominations from SCOR National Committees are especially welcome. **This is an opportunity to involve scientists from your country in SCOR working group activities;** SCOR funds will be allocated for the travel of working group members. Working groups may not have more than ten members (including the chair) due to financial limitations, however, so that not everyone who is nominated can be selected as Full Members. Some individuals may be invited to serve on working groups as Associate Members, but their travel funds must come from sources other than SCOR. The primary criterion for selection as a

member of a SCOR working group is the scientific expertise of the individual. Secondly, SCOR aims to ensure an appropriate international representation in all of its groups.

Please send your comments on these proposals to me, by e-mail if possible, before **June 10**, so that I can forward them to the appropriate Executive Committee member responsible for leading the discussion of each proposal. We plan to send revised proposals to you around July 3. Of course, the representatives of National Committees and other participants in the Executive Committee Meeting are welcome to comment at the meeting, but receiving your input in advance will help us to improve the proposals before the meeting discussion.

Finally, please consider whether financial support might be arranged for any of these groups through sources in your country. SCOR funding for working group activities is limited, so we depend on external funding to increase the number of working groups and the variety of topics covered. Even if external funding is certain, proposals will be evaluated on the basis of scientific merit, relevance to SCOR, and appropriateness of the proposed terms of reference and membership.

Thank you in advance for your assistance!
