REPORT SEP. AIRMAIL

Ref. 033.425
GFH/CV

January 23, 1962

The Secretary of SCOR,
34, Neuer Wall,
HAMBURG 36
GERMANY

Dear Bohnecke,

Thank you for the report. I have made some comments in pencil and have returned the draft by separate airmail. Most of the comments are small and are probably not really necessary.

Copies should go to everybody who attended and to the addresses on the Primary Mailing List. In addition, I think we could include Fisheries Division, FAO; ICSU; SCAR; WMO; IAEA; ICES; ICNAF; IWC; IATTC; CCTA/CSA, and the Institut Francais d'Oceanie at Noumea. I leave you to decide about these.

I agree with you about the announcement about Anton. It would be easier to use your signature or just my printed name; perhaps you could write my signature? I think we should leave the question of his replacement until our Executive meeting.

" I think it is an excellent suggestion about Professor Buckmann. I have written at once.

Item 1.6.1: I have distributed the final report (Circular Memorandum of November 22, 1961). I think we do not need to do anything else.

Item 1.6.2: Ketchum and Doty say they will not have their reports for many weeks. The analysis of the results is very complicated. They will probably cyclostyle and distribute them on the Primary Mailing List and thus save us the trouble.

I shall write separately about our Executive meeting.

Yours sincerely,

(G.F. HUMPHREY)
President of SCOR
