

Dr D. E. Cartwright, Prospects for Physical Oceanography from Space

Dr J. Joseph and Dr M. R. Stevenson, Possible Uses of Remote Sensing Techniques in Fishery Research and Commercial Fisheries

Another paper of interest to oceanographers was

Dr G. A. Maul, Applications of ERTS Data to Oceanography and the Marine Environment

4.6 INTER-UNION COMMISSION ON GEODYNAMICS

SCOR has notified the Inter-Union Commission on Geodynamics that it looks on CMG as its point of contact with the Commission and does not believe there is any necessity for SCOR to nominate a separate representative.

4.7 SCOPE

Dr G. F. Humphrey agreed to serve as SCOR representative on SCOPE, replacing Professor W. S. Wooster who had expressed the wish to resign.

5.0 FUTURE MEETINGS

5.1 JOINT OCEANOGRAPHIC ASSEMBLY

A meeting of the steering committee was held with the chairman, Professor W. S. Wooster, presiding. The report of the meeting is given in Annex XI

It was agreed to accept the United Kingdom proposal that the Assembly be held in Edinburgh from 13 to 24 September 1976.

Mr D. P. D. Scott was invited to serve as chairman of the Logistics Committee and to convene a meeting prior to the IOC Assembly in November 1973.

5.2 SCOR/SCAR POLAR OCEANS CONFERENCE

The Conference will be held in Montreal from 6 to 11 May 1974. A first announcement was issued by the Convener of the Steering Committee, Professor M. J. Dunbar, in January 1973 and a second circular and call for papers were about to be issued (Annex XII).

It was reported that there was a likelihood that the newly formed SCAR Subcommittee on Antarctic Marine Biological Resources would meet at the time of the Conference.

Further consideration was given to the desirability of convening, at the time of the conference, a joint meeting of representatives of SCOR, SCAR, IOC, WMO, FAO, ICES and other international organizations that had interests in promoting the study of different aspects of the polar oceans in order to attempt to coordinate plans and future activities. It was agreed, however, that it might be preferable to defer such consultation until such
